What We Heard

- “Encouraging to see this level of government cooperation.”
- “Great workshop-good info. Let’s start moving forward on all the plans and solutions.”
- “We need to create a sense of regional urgency.”
- “Need greater awareness of importance of regional water supply issues for public; quality, quantity, environmental impacts. Need communications plan and campaign.”
- “...simple database analysis with existing water use; future water needs; and estimated cost to provide future water supplies.”
- “More focus on recapture and reuse.”
- Landscape irrigation demands were a major concern.
- Several cities would like separate presentations scheduled to help increase awareness.
