

## **2025 CFWI Regional Water Supply Plan Team Public Meeting Scheduled October 13**

The 2025 Central Florida Water Initiative (CFWI) Regional Water Supply Plan (RWSP) Team will be holding a virtual public meeting Oct. 13, 2023, from 9-11 a.m.

The 2025 CFWI RWSP is the second five-year update to the 2015 CFWI RWSP and is a collaborative effort between the St. Johns, Southwest and South Florida water management districts (Districts) and key stakeholders.

The CFWI Planning Area consists of all of Orange, Osceola, Seminole, and Polk counties and southern Lake County, covering approximately 5,300 square miles. The 2025 CFWI RWSP will identify existing and projected water needs as well as projects and funding sources to meet those needs over the next 20 years.

Staff from the three Districts have been working collaboratively with stakeholders, sharing deliverables and garnering feedback for key components to the 2025 CFWI RWSP development. During the public meeting, staff will communicate the status, overall conceptual intent and the process for the 2025 CFWI RWSP.

The virtual public meeting will be held via Zoom and participants can register at this [registration link](#) to receive a calendar invite with the Zoom link.

The CFWI RWSP team will continue to hold meetings with stakeholders over the next two years as pertinent information becomes available. The 2025 CFWI RWSP will be available for public review in early 2025. The final 2025 CFWI RWSP is scheduled to be approved by the governing boards of the three Districts by the end of 2025.
